FOR IMMEDIATE RELEASE

## **SPATIALinfo Announces Preferred Software Partnership and Reseller Agreement with Autodesk**

Englewood, Colo., November 24, 2009—**SPATIALinfo** is pleased to announce its preferred software partnership and reseller agreement with Autodesk. Autodesk has designated **SPATIALinfo** as a Preferred Industry Partner for the telecommunications industry. Additionally, **SPATIALinfo** and Autodesk have entered into a software reseller agreement.

As a Preferred Industry Partner, Autodesk recognizes that **SPATIALinfo** provides the best software utilizing the AutoCAD platform for mapping and modeling telecommunications networks. This partnership will enable **SPATIALinfo** to combine talent and resources with Autodesk to further enhance its software to and to resolve complex technical problems quickly and cost effectively. The reseller agreement allows Autodesk to resell **SPATIALinfo** software licenses with the goal of increasing network design and modeling tools for the cable and telecommunications industries in North America.

“We are excited about the opportunity to work even more closely with Autodesk. **SPATIALinfo** products integrate closely with Autodesk products to provide the best network management solutions for the cable and telecommunications industries,” said **SPATIALinfo** Chief Executive Officer Greg Foster.

The Preferred Industry Partnership and reseller agreement with Autodesk enable **SPATIALinfo** to provide more customers with software that combines the best technologies for modeling and managing networks with AutoCAD, the most stable and widespread drafting platform in the world. Together, **SPATIALinfo** and Autodesk are able to reach and service more cable and telecommunications providers than ever before.

### About **SPATIALinfo**

**SPATIALinfo** specializes in developing network-management software solutions for the cable, telecommunication, utility, and transportation industries. Our **spatialSUITE™** products make it easy for professionals to map, modify, model, and manage complex fiber, copper, and RF cable networks. With strong partnerships and loyal customers, **SPATIALinfo** has become an international leader in developing off-the-shelf network-management solutions that offer a proven return on investment.
