FOR IMMEDIATE RELEASE

## Prestige Telecom Becomes SPATIALinfo Platinum Certified Engineering Partner

Englewood, Colo., Dec. 15, 2010—SPATIALinfo recently signed Prestige Telecom as a [platinum certified partner](#). Certified partners are elite cable and telecommunications engineering firms that purchase [spatialNET](#) licenses and undergo rigorous specialty training and testing.

Prestige Telecom, which provides professional and technical services for the telecommunications industry, purchased the necessary spatialNET licenses and successfully completed training in fiber, route, FTTH, ISP and RF to become a platinum certified partner.

“Prestige Telecom is delighted to be a platinum certified partner. We believe that SPATIALinfo has developed a leading product line that brings true enterprise solutions to the telecommunications market,” said Prestige Telecom Sr. Vice President of Engineering, Stewart Beatty, P.Eng.

SPATIALinfo’s partner certification program is a response to customer requests for specialized engineering support in designing, drafting and modeling cable and telecommunications networks. SPATIALinfo uses [certified partners](#) to customize network solutions for customers.

“Prestige Telecom is a welcome addition to our certified partner network. Their expertise for creating custom engineering solutions in the telecommunications industry is top-notch,” said SPATIALinfo CEO, Greg Foster.

For more information about SPATIALinfo’s partner certification program and all of SPATIALinfo’s certified partners, visit [www.spatialinfo.com](http://www.spatialinfo.com).

About [SPATIALinfo](#)

SPATIALinfo develops network-management software solutions for the cable and telecommunications industries. [SpatialSUITE™](#) products make it easy for professionals to map, model and manage complex fiber, copper and RF cable networks. With strong partnerships and loyal customers, SPATIALinfo is an international leader in developing network-management solutions that offer a proven return on investment. For more information, call Bill Scheffler at 303-810-4048 or visit [www.spatialinfo.com](http://www.spatialinfo.com).

About [Prestige Telecom](#)

Prestige Telecom (TSX-V: PR) is a leading provider of network engineering, materials furnishing, installation

and support services (commonly referred to as EF&I services) required to construct, operate and maintain wireline, wireless, broadcast and cable television networks. Prestige assists telecommunications original equipment manufacturers and service providers to engineer, install and upgrade their infrastructures to support enhanced voice, high-speed data and video services. Prestige Telecom also provides technical and aerial services to the Canadian communications and broadcast industries, including tower supply, engineering, site construction, and infrastructure and equipment maintenance.

Prestige has over 1,000 professional and technical personnel. In Canada, Prestige operates from 19 service locations in 9 provinces. Prestige's head office is located in Baie-D'Urfé (Montreal), Quebec.
