FOR IMMEDIATE RELEASE

SPATIALinfo Announces Randy Boll as Sales Director

Englewood, Colo., March 11, 2010—SPATIALinfo announces Randy Boll as Sales Director. Randy has over 25 years of technical sales and account management experience in the computer, GIS and cable markets. He was recently a sales manager for Bentley Systems, which provides software solutions for infrastructure design, modeling and mapping.

“SPATIALinfo’s business has expanded to the point where we require additional personnel with cable and telecommunications infrastructure management experience to reach our growing customer base. Randy has significant experience as a sales manager working with cable and telephone companies of all sizes. We are happy to have him on board,” said SPATIALinfo Executive Vice President Bill Scheffler.

Boll’s experience as a sales manager has afforded him a breadth of exposure to North American cable and telecommunications customers and in-depth experience with infrastructure management software. As a result, Randy is able to identify customer needs quickly and recommend the ideal SPATIALinfo solutions to address them.

“Randy keeps his customers’ best-interests in the forefront of business. He provides trusted advice and offers value-added solutions tailored to meet each customer’s need. His integrity and concern for providing ultimate customer-satisfaction build long-lasting and valued client relationships,” said former C.I.S. President Jeff Eichler.

Boll lives in Georgia and has a B.A. in Economics and Political Science from Muhlenberg College. In his free time, he enjoys traveling, playing golf, and volunteering

About SPATIALinfo

SPATIALinfo specializes in developing network-management software solutions for the cable, telecommunication, utility, and transportation industries. Our **spatialSUITE™** products make it easy for professionals to map, modify, model, and manage complex fiber, copper, and RF cable networks. With strong partnerships and loyal customers, **SPATIALinfo** has become an international leader in developing off-the-shelf network-management solutions that offer a proven return on investment.
